

### **Are you looking for your next opportunity?**

Sompo has a unique opportunity for an Actuarial Analyst for Aviation, Marine, Energy & Specialty Lines in our UK Insurance Pricing team for our London Wholesale and Specialty business.

Our UK Insurance Pricing team offers Actuarial support to the Wholesale and Specialty Underwriters. We work closely with the underwriters to determine the support required to achieve their strategies for growing the business profitably throughout the market cycle. We work alongside our colleagues across the Sompo group to enhance our understanding of market practice and to enact best practice in a pricing role.

**Location:** This position will be based out of our London office. We strive for collaboration which is why we offer a work environment where our employees thrive and develop long lasting careers.

### **Our business, your impact, our opportunity:**

#### **What you'll be doing:**

- Pricing of complex contracts across the classes listed, ensuring close collaboration with the underwriters, providing clear explanation of technical Actuarial modelling techniques alongside the results.
- Update the pricing models through reparameterisation exercises and structural modifications where necessary, and support in developing pricing models for new areas of business written by the Underwriting team.
- Apply actuarial pricing techniques to individual account analysis and portfolio analyses and prepare presentations and quantitative exhibits for management and underwriters that convey insight and key outcomes.
- Assist in the business planning process, working with the Pricing Actuary lead for these lines and the underwriters to articulate business plans and the rationale that underpins them.
- Assist in identifying and assessing strategic growth opportunities by working alongside the underwriting team to better understand the current portfolio against the market portfolio.
- Completion of risk audits to ensure the pricing models are being completed appropriately by the underwriters and that the modelled results are reasonable, taking action to resolve any deficiencies.

#### **What you'll bring:**

- Institute and Faculty of Actuaries accreditation (Student), or equivalent through experience or alternative qualifications.
- A minimum of three years' experience in a UK/European wholesale/specialty insurance company, financial services, or consulting firm.
- Previous pricing experience in the lines of business listed is preferable.
- Strong analytical and quantitative skills in Excel, SQL or other relevant tools and strong IT skills in areas such as R and Python are an advantage.
- Strong interpersonal skills and the ability to effectively interact with colleagues at all levels.

#### **Our Benefits**

We continuously evaluate and update our benefit programs to ensure that our plans meet the needs of our employees and their dependents. Below are a few highlights of our inclusive benefit programs:

- Expansive Health & Wellness Benefits
- Generous Retirement & Savings Plans
- Global Parental Leave & Adoption Assistance

### **In today's world, what do we stand for?**

We strive to create exceptional value for our clients and shareholders while maintaining Sompo as an attractive place to work. We foster an environment of ongoing, open dialogue between managers and their direct reports, and believe in an organizational environment where everyone belongs. We proudly are a multi-racial, multi-cultural, global enterprise. We reject all forms of racism, bigotry, prejudice and injustice and continue to invest in building out an inclusive and diverse work environment.

### **About Us**
