

Sompo International Holdings Ltd. (Sompo International) is a specialty provider of property and casualty insurance and reinsurance, established in March 2017 as the result of the acquisition of Endurance Specialty Holdings Ltd. by Sompo Holdings Ltd. (Sompo).

Sompo's core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. In addition, Sompo is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation and a wholly owned subsidiary of Sompo, which trades on the Tokyo Stock Exchange. Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, marine and energy, and casualty and other specialty lines of insurance and catastrophe, property, casualty, professional lines, weather risk and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those who matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. At Sompo International, a shared commitment to integrity, teamwork, agility, execution, and excellence define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking a **Data Analytics Analyst** to support of the global audit function and optimize our reporting capabilities in our **Purchase, NY** Office. This role, within the Professional Practices Group, provides a unique opportunity for the right candidate to learn both the internal audit function, as well as, the broader insurance business.

Responsibilities include:

- Lead data analytics projects in support of audit execution through understanding of the scope, key areas of risk, and propose ideas for the use of data analytics.
- Work with large volumes of data and develop Alteryx workflows and scripts in SQL for filtering logic, aggregation, and perform data manipulations based on comprehension of key business requirements and scenarios logic.
- Manage time allocations and capacity against audit deliverables and timelines. Provide estimates on projects and manage expectation based on current and future capacity.
- Manage multiple deliverables and work with various stakeholders.
- Coordinate data access and data extraction of key systems to support audit work and for future tools automation.
- Demonstrate ability to understand complex technology infrastructure as it relates to data flows and business processes.
- Work in a team environment that requires frequent communications with various stakeholders and be adaptable in undertaking new and challenging projects.

Desired Skills & Experience

- A minimum of a bachelor's degree (Master's a plus) in Data Science, Computer Science, Information Technology, Information Systems, Statistics, Applied Math, or any other related field.

SOMPO INTERNATIONAL

- Three to Five years of experience in a data analytics role with hands-on experience working with data
- Data Visualization experience with Power BI or similar technologies, specifically the ability to stage data from multiple sources, design dashboard content, and develop applications through multiple iterations with users
- Strong SQL and knowledge of data extraction and manipulation techniques including the ability to stage and import large volumes of data
- Strong communication skills and ability to thrive in a fast paced, multiple deliverables, team-oriented environment
- Working knowledge of tools for data analysis, including SQL Server, Alteryx, Python, etc.
- Insurance or financial services experience is preferred
- Experience with TeamMate+ would be an advantage
- Additional language(s) desirable

Sompo International offers a competitive compensation and benefits package commensurate with experience. The minimum salary for this position: **\$90,000**.
