

SOMPO INTERNATIONAL

Sompo International is the trade name for the global specialty property and casualty insurance and reinsurance operations of Sompo Holdings, Inc. ("Sompo"), established in March 2017 as the result of Sompo's acquisition of Endurance Specialty Holdings Ltd.

Sompo is a financial services holding company organized under the laws of Japan whose shares are listed and posted for trading on the Tokyo Stock Exchange. Sompo, through various operating subsidiaries, is one of the top three insurers in Japan and is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation of Sompo and, through its operating subsidiaries, writes agriculture, casualty and other specialty, professional lines, property, marine/energy and aviation lines of insurance and catastrophe, property, casualty, professional lines and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those whose contributions matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. A shared commitment to integrity, accountability, collaboration and agility define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking an **ETL Developer** to join our **Information Technology** team in our **Conshohocken, PA or Purchase, NY** office.

Main areas of responsibility:

- Provide technical support for the administration and production support of Informatica
- Provide first and second level troubleshooting, and baseline and operational support
- Lead team of ETL developers. Provide oversight, work allocation and ensure deliverable consistency, quality and adherence to standards.
- Design, document and implement new ETL and enhancements and modify existing code. Work independently to develop, configure, and unit test programs from specs (source to target mappings)
- Work closely with data architects, reporting team and application team on ETL development efforts including analysis and design of integration solutions and enhancements. Must be able to explain and support decisions and actions taken
- Design and document ETL solutions for projects, estimate work effort and oversee delivery with the ETL team
- Present all work in design and code review sessions to senior team members
- Prepare documents that describe and support code developed
- Adhere to best practices and methodologies for ETL development team
- Identify improvements to the data warehouse environment. Work with the team to implement these solutions
- Escalate issues to the right party when required

SOMPO INTERNATIONAL

Minimum Qualifications:

- Minimum 6 years of experience in ETL development
- 5+ years' experience in development, maintenance, and enhancements of **Informatica** Mappings, Workflows, and processes
- Experience working with complex SQL code
- Proven, hands on experience with development, maintenance, and enhancements of Informatica Mappings, Workflows, and processes
- Expertise with integration technologies and processes

Preferred Qualifications:

- Excellent analytical, organization, presentation and facilitation skills; ability to handle multiple tasks under tight deadlines
- Working knowledge of Kimball design methodology
- Knowledge of testing tools and techniques
- Window environment experience
- Query Surge experience

Education:

- Bachelor's degree in Computer Science, MIS, related field or equivalent experience.

Sompo International offers a competitive compensation and benefits package commensurate with experience. For consideration; please e-mail your resume along with salary history/requirements to: abenincaso@sompo-intl.com.

**Sompo International is an equal opportunity employer committed to a diverse workforce.
