

Aggregation Assistant (FTC)

Sompo International Holdings Ltd. (Sompo International) is a global specialty provider of property and casualty insurance and reinsurance. Sompo International companies are wholly owned subsidiaries of Sompo Holdings, Inc., whose core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market.

Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, aviation, marine and energy, financial and political risks and casualty and other specialty and catastrophe lines of insurance and reinsurance. Headquartered in Bermuda, we currently also have offices in the United States, the United Kingdom, Continental Europe, Latin America, the Middle East and Asia.

Sompo International is a company driven by its core values, a carrier that holds promise, trust and the commitment to protect at the center of everything we do. We recognize that our success is derived directly from those who matter most: our people. Our culture is defined by a commitment to integrity, teamwork, agility, execution, and excellence; and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking an **Aggregation Assistant** to join our Catastrophe Modelling team in our London office.

This position provides an excellent opportunity for the candidate to develop their knowledge and understanding of Catastrophe Modelling within an insurance operation and work closely with underwriting teams across London, Europe and US platforms by providing analytics to support underwriting decisions.

Duties & Responsibilities

- Provide pre and post-bind catastrophe modelling for underwriting submissions across relevant lines of business
- Interpret slip information and apply accurately within the catastrophe model ensuring a consistent approach is maintained in line with the data dictionary
- Cleanse exposure data using a variety of methods and applications
- Establish and maintain a strong working relationship with outsourcing providers
- Ensure that underwriters are provided with a fast and accurate service in modelling information and analytics
- Assist modelling team in ensuring exposure is accurately captured for portfolio roll up
- Ad hoc projects as required

Skills, Qualifications and Experience:

- Degree qualified or strong A Levels in a numerical, sciences or natural hazards subject
- Excellent IT skills, particularly in Excel required
- Strong numerical data handling and analysis skills
- Ability to understand and communicate technical concepts
- Ability to work effectively individually and as part of a team
- Strong verbal and written communication skills – position requires interaction with numerous stakeholders at all levels

Sompo International offers a competitive compensation and benefits package commensurate with experience.

Sompo International is an equal opportunity employer committed to a diverse workforce.
