

Energy Exposure Analyst

Sompo International Holdings Ltd. (Sompo International) is a global specialty provider of property and casualty insurance and reinsurance. Sompo International companies are wholly owned subsidiaries of Sompo Holdings, Inc., whose core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market.

Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, aviation, marine and energy, financial and political risks and casualty and other specialty and catastrophe lines of insurance and reinsurance. Headquartered in Bermuda, we currently also have offices in the United States, the United Kingdom, Continental Europe, Latin America, the Middle East and Asia.

Sompo International is a company driven by its core values, a carrier that holds promise, trust and the commitment to protect at the center of everything we do. We recognize that our success is derived directly from those who matter most: our people. Our culture is defined by a commitment to integrity, teamwork, agility, execution, and excellence; and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

Responsibilities include:

- Ensuring the accurate and timely capture of Upstream Energy exposures into our aggregation system (Sequel Impact)
- Run monthly aggregate and modelling reports for underwriting team and governance processes
- Portfolio analysis- running monthly internal reports via Sequel
- Assisting in the production of Reinsurance Submissions (running RDS reports, presenting findings to Senior Analyst)
- Providing assistance with Catastrophe modelling (RMS) for Gulf of Mexico wind exposures
- Interact with the underwriting support functions, eg. Claims, Risk, Compliance.
- Supporting Underwriting team in day to day handling of the Energy book, at times may be required to support other business lines such as Aviation and Marine.
- Preparing information for Underwriting purposes, specifically regarding account pricing, engineering overviews and account performance analysis

Desired Skills & Experience:

The candidate needs to:

- Numerate/Scientific qualifications
- Strong analytical skills and attention to detail
- Good communication skills / teamwork
- Intermediate Excel skills
- Previous knowledge or experience in Catastrophe Modelling beneficial but not essential
