

Senior Pricing Actuary Europe - AgriSompo

Sompo International Holdings Ltd. (Sompo International) is a specialty provider of property and casualty insurance and reinsurance, established in March 2017 as the result of the acquisition of Endurance Specialty Holdings Ltd. by Sompo Holdings Ltd. (Sompo).

Sompo's core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. In addition, Sompo is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation and a wholly owned subsidiary of Sompo, which trades on the Tokyo Stock Exchange. Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, marine and energy, and casualty and other specialty lines of insurance and catastrophe, property, casualty, professional lines, weather risk and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those who matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. At Sompo International, a shared commitment to integrity, teamwork, agility, execution, and excellence define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking a **Senior Pricing Actuary Europe – AgriSompo** for our **Italy office in Verona**. This role will provide support to Agrisompo team across the full spectrum of analysis regarding tariff and technical price process, focusing in particular on data exploration, risk models and what-if analysis.

This key role will be highly visible, as this individual will have the opportunity to interact with and advise senior management. We are looking for an individual who is internally motivated, intellectually curious, has the ability to manage multiple priorities, and is driven to enhance existing processes.

Responsibilities include:

- Develop and update risk models using advanced statistical techniques
- Assessment on a regular basis of the quality and correctness of the models
- Data exploration analysis using internal and external database to develop the predictive power of the models
- Evaluation of overall rate requirement
- Tariff development
- Scenario testing analysis to evaluate the impact of different tariffs on portfolio performance
- Develop reports based on updated predicted KPI's to help business effectively manage existing portfolios
- Partner with management teams to provide actuarial advice and data driven insights that will support underwriting decisions
- Continuous alignment with group best practices and technical documentation update
- Interface with other business functions

Desired Skills and Experience:

- Candidates with relevant actuarial experience strongly preferred
- Fluent in Italian and English
- Candidates who are credentialed member of a recognized actuarial society are preferred but not required
- Degree in Mathematics or related discipline
- Strong analytical (GLM/Machine Learning approach) and problem-solving skills
- Territorial clustering techniques
- Work well both independently and as part of a team
- Expertise in Excel, Access, VBA, R, or other programming languages preferred
- Effettive time management skills
- Excellent communication, presentation, and interpersonal skills

Sompo International offers a competitive compensation and benefits package commensurate with experience.
