

Summer Internships

Internship with Sompo International

Our Summer Internship Program is a paid, ten week program that offers students the opportunity to enhance their education and obtain hands-on insight into the insurance business.

The program incorporates a range of experiences including:

- Classroom and On The Job Training
- Executive Lunch and Learn Speaker Series
- Social and Corporate Networking Events
- Mentoring Program

Every intern becomes a member of a Sompo International department for the full duration of the program and works on projects that have an impact on the business. From processing policies to meeting with brokers, our interns work alongside their managers to deliver results and apply their classroom experience in real-world situations.

Projects & Networking

In addition to departmental projects, interns participate on cross-functional team projects working alongside other interns. Each project explores a current Sompo International business need and involves conducting research, developing a thesis and presenting the group's findings to our executive team.

At Sompo International, our employees enjoy sharing their experiences and insights, mentoring our interns and helping them prepare for a career in insurance.

The internship experience culminates at the end of the summer with both an intern-specific social event and a company outing, where interns have the chance to interact with employees from across the organisation – and more!

What Does it Take to Intern at Sompo International?

Some of the qualities that we look for in our summer interns:

- Currently enrolled at university studying a 3-year undergraduate or master's degree
- A final classification of 2.1 or above.

What Former Interns are Saying...

“ The intern talks and social events I attended presented the opportunity to build relationships with many people including like-minded students and employees who have years of experience in the different business lines within insurance. ”

“ The intern project was essential in improving collaboration skills for me and the other interns and this skill will only improve over time as I gain more experience. Additionally, I've received great feedback and advice on constructing emails with clarity. ”

“ I learnt a lot about Sompo and the types of insurance that exist. Everyone seemed happy to take some of their time to tell us about what they do and we were able to gain greater understanding of teams and form better relationships with colleagues. ”
