Summer Internships

Internship With Sompo International

Our Summer Internship Program is a paid, ten week program that offers students the opportunity to enhance their education and obtain hands-on insight into the insurance business. The program incorporates a range of experiences including:

- Classroom and On The Job Training
- Executive Lunch and Learn Speaker Series
- Presentations from Major Brokerages
- Social and Corporate Networking Events
- Mentoring Program
- Community Enhancement Event

Every intern becomes a member of a Sompo International department for the full duration of the program and works on projects that have an impact on the business. From processing policies to meeting with brokers, our interns work alongside their managers to deliver results and apply their classroom experience in real-world situations.

What Former Interns Are Saying...

"As I depart from Sompo International the overall impression of the company I got is the everyone who works here is extremely hardworking and passionate about their roles. Everyone was so warm, welcoming and friendly and treated everyone with respect. I also never felt apprehensive to ask anyone a question I had. My manager and team went above and beyond to make sure I had grasped what we were working on that day and gave me many "real-world" examples about their experiences."

- Elizabeth Baney

Projects & Networking

In addition to departmental projects, interns participate on cross-functional team projects working alongside other interns. Each project explores a current Sompo International business need and involves conducting research, developing a thesis and presenting the group's findings to our executive team.

At Sompo International, our employees enjoy sharing their experiences and insights, mentoring our interns and helping them prepare for a career in insurance.

The internship experience culminates at the end of the summer with both an intern-specific social event and a company outing, where interns have the chance to interact with employees from across the organization – and more!

What Does It Take To Intern At Sompo International?

Some of the qualities that we look for in our summer interns:

- Current matriculating students pursuing an undergraduate 4-year or master's degree
- GPA of 3.3 or higher
- Previous internship experience, preferably within the insurance industry

"Incredibly impressed. I got to be a part of a wonderful work environment and learn from people who showed genuine interest in my career and invested time and effort way beyond what was required or expected. Everyone seemed very passionate about their work and my future."

-Railey Ayers

I think Sompo International, is clearly growing in the right direction and right side of insurance history. I think Sompo really thrives on having such a diverse group of talent with specialized areas. I think everyone I've met here has been nothing but kind, but also willing to share knowledge. I truly think this a goal company I'd like to work at long term. Sompo overall really exceeded my expectations.

- Hana Keiningham
