

Summer Internships

Internship with Somo International

Our Summer Internship Program is a paid, ten week program that offers students the opportunity to enhance their education and obtain hands-on insight into the insurance business.

The program incorporates a range of experiences including:

- Classroom and On The Job Training
- Executive Lunch and Learn Speaker Series
- Presentations from Major Brokerages
- Social and Corporate Networking Events
- Mentoring Program
- Community Enhancement Event

Every intern becomes a member of a Somo International department for the full duration of the program and works on projects that have an impact on the business. From processing policies to meeting with brokers, our interns work alongside their managers to deliver results and apply their classroom experience in real-world situations.

Projects & Networking

In addition to departmental projects, interns participate on cross-functional team projects working alongside other interns. Each project explores a current Somo International business need and involves conducting research, developing a thesis and presenting the group's findings to our executive team.

At Somo International, our employees enjoy sharing their experiences and insights, mentoring our interns and helping them prepare for a career in insurance.

The internship experience culminates at the end of the summer with both an intern-specific social event and a company outing, where interns have the chance to interact with employees from across the organization – and more!
