WHO ARE WE?

Sompo International Holdings Ltd. (Sompo International) is a global provider of property, casualty and specialty insurance and reinsurance. The company was established in March 2017 when Sompo Holdings Inc. (Sompo), one of the largest property and casualty insurance groups in the Japanese domestic market, acquired Endurance Specialty Holdings Ltd., including Lloyd's Syndicate 5151.

Since then we have consolidated our London insurance presence into one company market platform, are supported by an extensive distribution network, and operate in key markets throughout the world including UK, Europe, U.S., Bermuda and Asia Pacific. Our ambition is to become a global top 10 insurance carrier through risk diversification, continued expansion and high-quality delivery to all our business stakeholders.
