REINSURANCE

## Sompo International Reinsurance

Sompo International Reinsurance underwrites casualty, catastrophe, professional lines, property and specialty lines of reinsurance including agriculture, aviation and space, engineering, marine and energy, surety and trade credit. Our account management approach and exceptional financial strength enable us to offer a broad multi-line capability to underwrite risks across our clients' insurance portfolios around the globe. We are supported by proprietary analytic and modeling tools and databases and the transactional experience of our underwriting, actuarial, legal and claims professionals.

## Workers' Compensation & Employers' Liability

The focus of our Workers' Compensation segment is on traditional working layer workers' compensation and employers' liability coverage. We underwrite on both an excess of loss and proportional basis and coverage is typically provided per person/per occurrence.

We provide significant capacity and look to partner with companies who possess superior underwriting expertise, exceptional claims handling capabilities and effective information technology to drive their results.
