

SOMPO INTERNATIONAL

Sompo International Holdings Ltd. (Sompo International) is a specialty provider of property and casualty insurance and reinsurance, established in March 2017 as the result of the acquisition of Endurance Specialty Holdings Ltd. by Sompo Holdings Ltd. (Sompo).

Sompo's core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. In addition, Sompo is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation and a wholly owned subsidiary of Sompo, which trades on the Tokyo Stock Exchange. Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, marine and energy, and casualty and other specialty lines of insurance and catastrophe, property, casualty, professional lines, weather risk and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those who matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. At Sompo International, a shared commitment to integrity, teamwork, agility, execution, and excellence define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking a **Property Risk Control Specialist** for our **Global Risk Solutions** team. Global Risk Solutions offers comprehensive multi-line capabilities targeted at select industry verticals. Servicing middle market and large accounts domiciled in the U.S., we work through a network of retail brokers who share our commitment to long-term partnerships built on white glove service.

The Property Risk Control Specialist will provide risk improvement consultation to large and middle market commercial customers in our targeted industry verticals and provide added value to our clients. The focus of this position is to evaluate the processes in place, conduct on-site visits of existing and prospective clients and aid the underwriters in the selection and pricing of an account. The Risk Control Specialist will also be responsible to track trends at an account and book level and communicate effectively with our clients and brokers. Candidate must have proficiency in property risk control skills.

Duties and Responsibilities:

- Working closely with the Property Underwriting including Machinery Breakdown to support key underwriting initiatives, interpreting technical criteria to help increase retention and reduce reinsurance costs, creating new marketing opportunities (e.g. writing papers, giving presentations, etc.), and providing ad hoc and formal training
- Completing surveys of complex and highly valued property risks
- Evaluating fire protection systems design and adequacy
- Estimating PMLs and MFLs
- In-depth knowledge and experience in the application of NFPA and FM standards.
- Providing outstanding service to clients
- Reviewing sprinkler system plans for compliance with design standards
- Assisting in the peer review process for quality assurance and development of staff

SOMPO INTERNATIONAL

- Assisting the field staff and underwriting in risk evaluation for complex property accounts
- Developing the Risk Control survey forms and technical guidelines as they relate to property protection and evaluation
- Proactively providing feedback to the team of property specialists to ensure that the guidelines are up to date and accurate
- Supporting the field staff with account property problems including reviewing plans, joint visitation to complete an evaluation and interpret standards
- Collaborating with the other technical specialists and the management staff to promote the very best quality of analysis and service
- Recommending the Sending out of Alerts to staff and clients on issues of timely importance including a recommended plan of action that has underwriting and marketing approval
- Promoting Sompo International's expertise in the marketplace by attending conferences and participating in industry organizations
- Complete Basic Casualty Surveys

Qualifications

- A four-year college degree or equivalent
- Preferred Professional Engineer (PE) license or other related certification
- Preferred minimum of 10 years of experience in insurance and property loss control
- Solid understanding of fire science and hydraulics
- Capable of evaluating natural catastrophe exposure such as flooding and wind storm
- Basic Casualty Knowledge
- Ability to find alternative equivalent solutions to complex problems
- Excellent oral and written communication skills, as well as an established capability in public speaking are necessary
- A proven track record of superior analytical, project management and planning skills
- Demonstrated leadership skills that include the ability to influence others without having a direct reporting relationship
- A self-starter who can initiate and complete a project with minimal supervision

Sompo International offers a competitive compensation and benefits package commensurate with experience. For consideration; please e-mail your resume along with your Minimum Salary Expectations as well as your Minimum Total Compensation Expectations to:
