

SOMPO INTERNATIONAL

Sompo International is the trade name for the global specialty property and casualty insurance and reinsurance operations of Sompo Holdings, Inc. ("Sompo"), established in March 2017 as the result of Sompo's acquisition of Endurance Specialty Holdings Ltd.

Sompo is a financial services holding company organized under the laws of Japan whose shares are listed and posted for trading on the Tokyo Stock Exchange. Sompo, through various operating subsidiaries, is one of the top three insurers in Japan and is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation of Sompo and, through its operating subsidiaries, writes agriculture, casualty and other specialty, professional lines, property, marine/energy and aviation lines of insurance and catastrophe, property, casualty, professional lines and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those whose contributions matter most: our people. Sompo International's headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. A shared commitment to integrity, accountability, collaboration and agility define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking a **Senior Exposure Management Analyst** to join our Exposure Management team in our **NYC, Florham Park, NJ or Purchase, NY locations**. This role will report directly to the Head of Exposure Management. The successful candidate will provide an advisory service to the group's risk managers and business leaders by improving the quality and consistency of aggregation risk analysis and reporting across the group.

The **Senior Exposure Management Analyst** will be instrumental in embedding group-wide best practice and principles throughout the business' international operations. The successful individual will ideally be based in New York and will have experience with natural and/or man-made Catastrophe risks and multiple lines of business.

The Exposure Management team plays a key role in the Risk team of Sompo International, under the leadership of the Group CRO. This group has specific responsibility for supporting underwriting leadership in setting and executing risk strategy with a focus on products with the greatest potential to consume capital resources. As a part of this global team the successful candidate will have the opportunity to contribute to the development of progressive and actionable risk analytics.

The position requires a candidate that complements strong technical abilities with exceptional stakeholder management skills, allowing the candidate to align themselves closely with underwriting divisions to better support, influence and facilitate underwriting strategies.

Specifically, the successful candidate will be expected to contribute significantly to the delivery of a best-in-class exposure management framework across Sompo International. The role will benefit from being able to roll out a mature exposure management framework, developed in London, that is currently viewed as best-in-class and a benchmark for best-practice. This 'ground floor' opportunity is unique for a company of Sompo's scale and breadth, hence the growth and development opportunities for the successful candidate are significant.

SOMPO INTERNATIONAL

Principal Responsibilities:

- Operate the group Exposure Management framework by which accumulations are identified, analysed, and reported
