

REINSURANCE WEB-BASED PORTAL

SompoReConnect

We are pleased to introduce **SompoReConnect**, a secure, web-based reinsurance modeling and pricing platform that enables our ceding partners to quote and bind reinsurance coverage quickly and efficiently. SompoReConnect provides streamlined data entry to obtain Auto Liability, General Liability, Workers' Compensation, and Umbrella Reinsurance quotes within minutes, 24/7.

KEY FEATURES

Ease of use

- No need for submissions
- Pre-established Underwriting Guidelines
- Required underwriting information can be uploaded via an Excel template

Flexibility

- Several different layers priced to assess the best fit for the insured
- Layers can be quota-shared with Sompo or reinsured 100%

Access to enhanced online underwriting tools

- Commercial Auto Risk Scoring Model (CARS)
- Central Analysis Bureau Reports (CAB)
- Experian Credit Reports
- A.M. Best Underwriting Guides

Real time management reporting capabilities

- On demand bordereau and management reports via the platform

Commitment to service

- Assignment of lead and backup underwriters for referrals to ensure the best possible working relationship with the ceding company and their underwriters
- Same-day turnaround time for most referrals
